

DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL (Department)
Bureau of Water
Triennial Review of R.61-68 *Water Classifications and Standards* &
R.61-69 *Classified Waters*

Stakeholder Meeting Notes
June 26, 2007

Attendees:

See attached table.

Introductions and Opening Comments:

Staff welcomed the attendees and asked everyone to sign in and take a copy of the strikeout/highlight copy of Regulation 61-68 showing the proposed changes. Attendees introduced themselves and identified whom they represented. The attendees were thanked for attending the meeting and it was suggested that the group proceed with going through the document showing the proposed changes then that the floor would be open to discuss new items and the newly received comment letters. The group was informed that the new comment letters will be posted on the webpage for review.

General Discussion of the Triennial Review Comments and Responses

Each change proposed in Regulation 61-68 was identified and the attendees were provided the changes for discussion. The proposed language in Section E.14(c)(5) was explained in more detail by Mr. Jeff deBessonnet and was followed by discussion by the group. The remaining proposed changes were identified and discussed. After a brief break, the attendees were invited to bring up any additional issues that had not been discussed or to discuss the items in the most recent comment letters. Discussions continued for approximately one hour, covering many of the issues in the comment letter from the SC Water Quality Association. The attendees were reminded that written comments would still be considered by the Department.

Staff indicated that the Department would provide a response to written comments at the next stakeholder meeting.

Next Meeting:

August 2nd 1:00 pm at 2600 Bull Street, Columbia, in room 1635.
